About the Company

AS ASSOCIATES is a multi-disciplinary environmental and infrastructure solutions company committed to building a cleaner, greener, and more sustainable future. With operations spanning legacy waste management, heavy equipment rental, organic fertilizer production, and water body conservation, we bring together engineering expertise and environmental responsibility.

Founded with the belief that development and nature can thrive together, our company offers integrated services that support urban growth while restoring ecological balance. Over the years, we have built trust through high-quality work, reliable execution, and a constant focus on innovation.

NEW BHARAT

Our Vision

To lead India toward sustainable environmental management while becoming a trusted partner in infrastructure development, natural resource restoration, and eco-friendly agricultural solutions.

Our Mission

To provide responsible waste-to-resource solutions that reduce landfill burden.

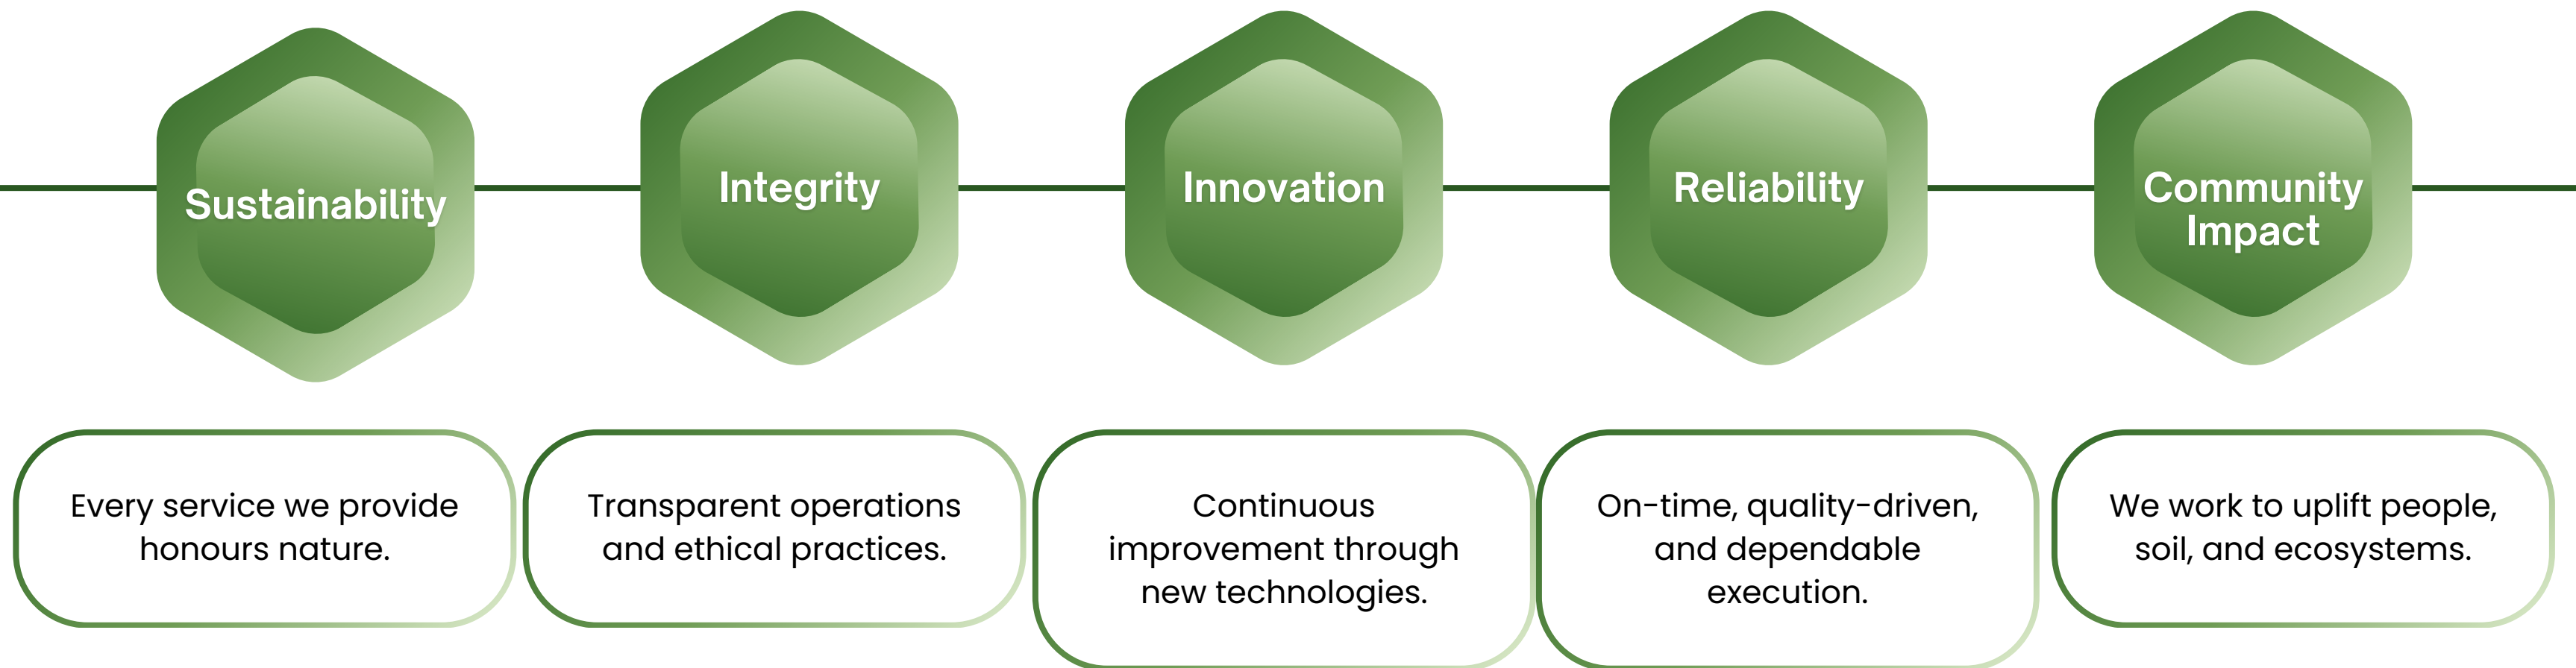

To deliver reliable, efficient, and safe construction equipment support for infrastructure projects.

To manufacture chemical-free vermicompost and organic fertilizers that restore soil life.

To revive ponds, lakes, and water bodies using scientific and environmentally conscious methods.

To promote green landscapes that improve community well-being and environmental health

Our Core Values

Our Offered Services

01 Legacy Waste Management

02 Road & Construction Equipment Services

03 Vermicompost Manufacturing

04 EarthPower Organic Fertilizers

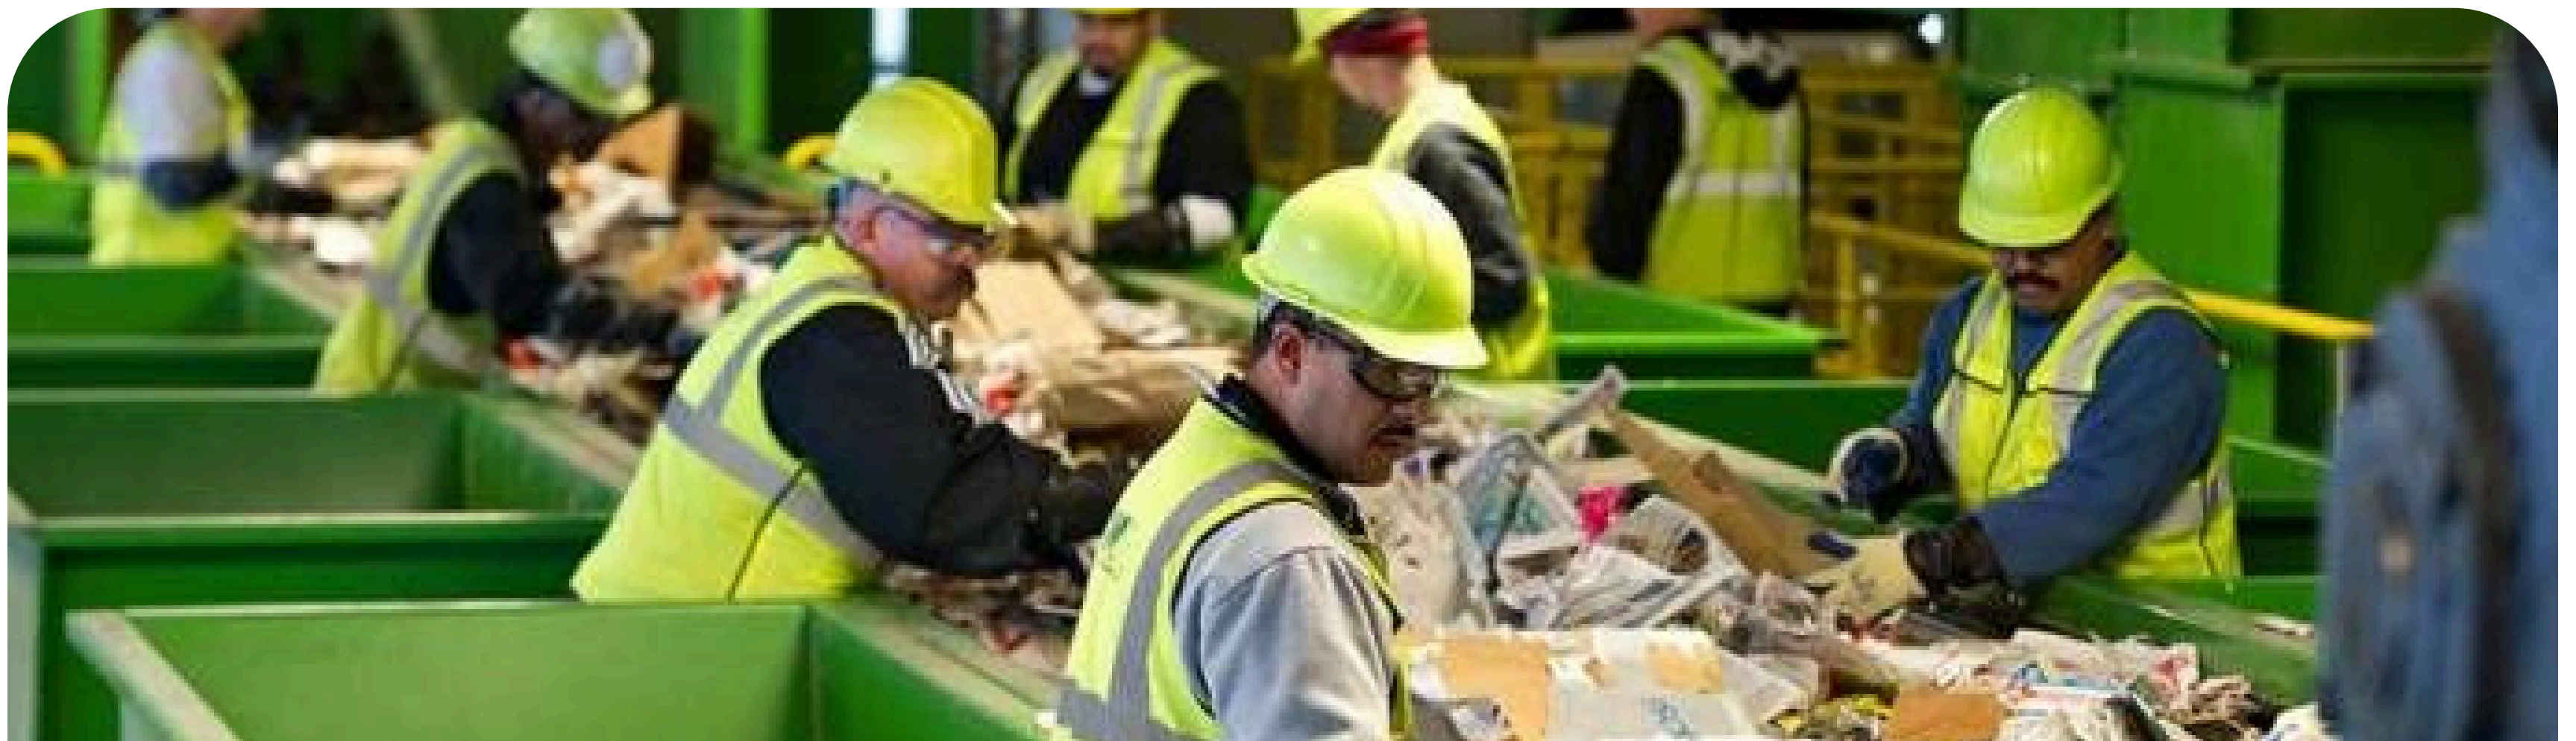

05 Water Body Management & Beautification

06 Landscaping & Green Development

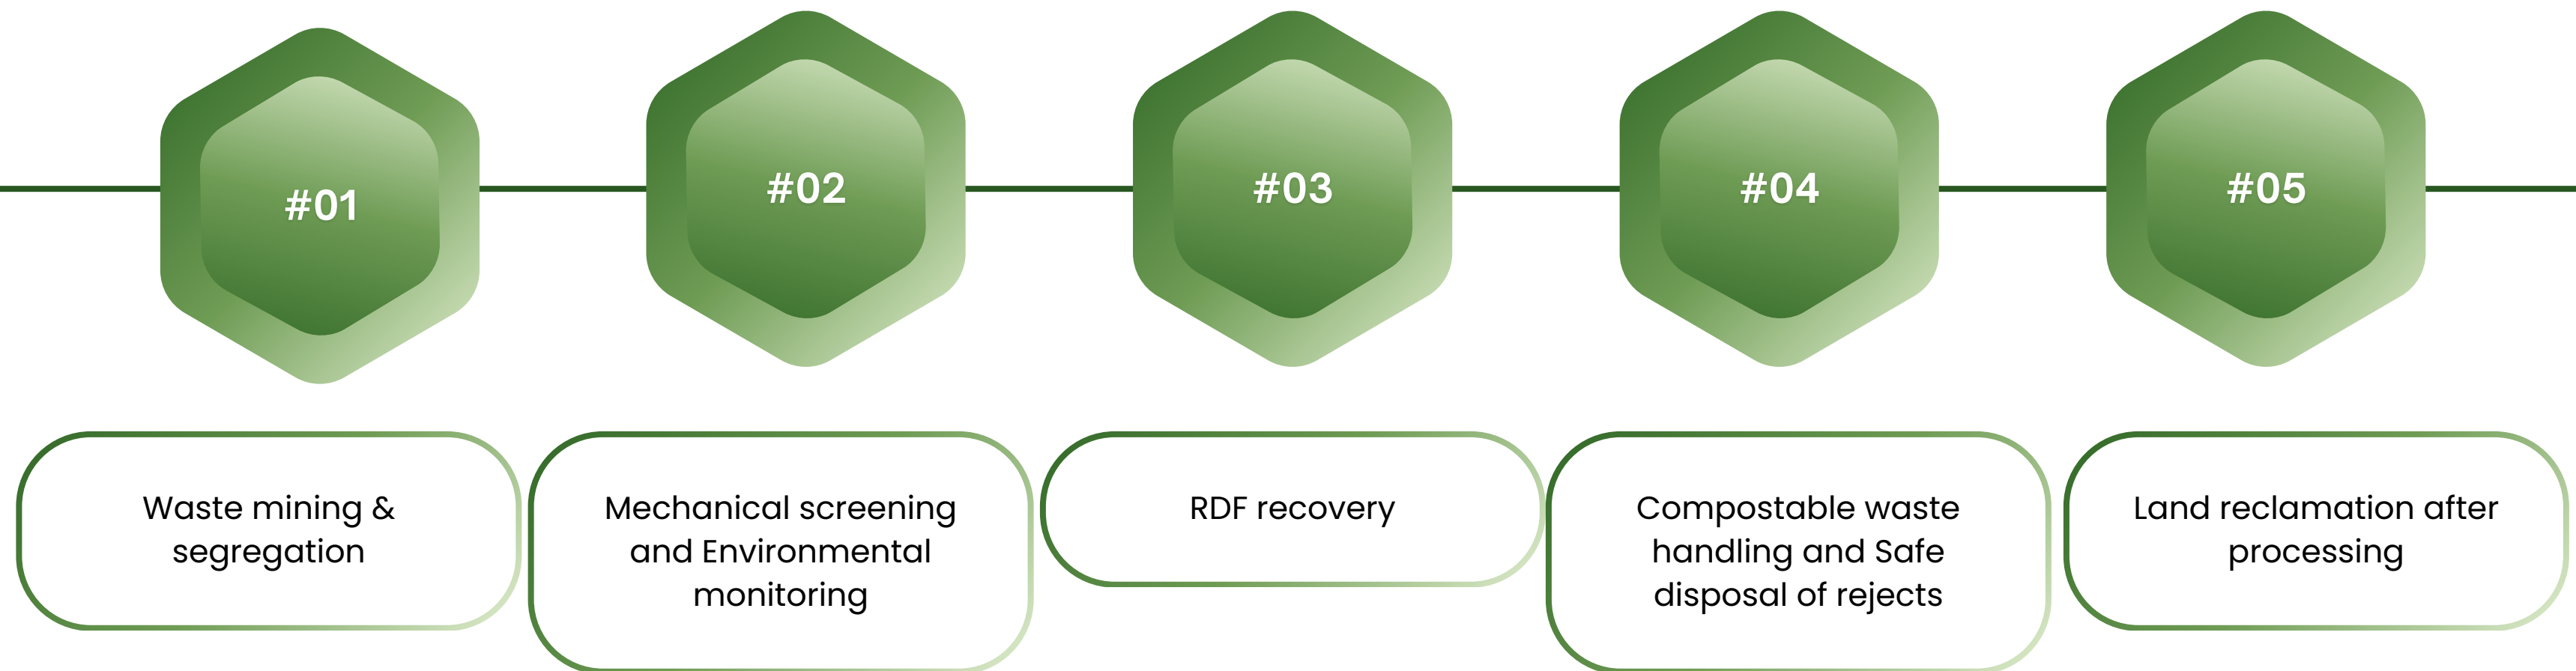

LEGACY WASTE MANAGEMENT

India's cities generate millions of tonnes of legacy waste. Unmanaged dumpsites cause pollution, land degradation, and health hazards. We provide scientific, systematic waste remediation services.

Our Capabilities

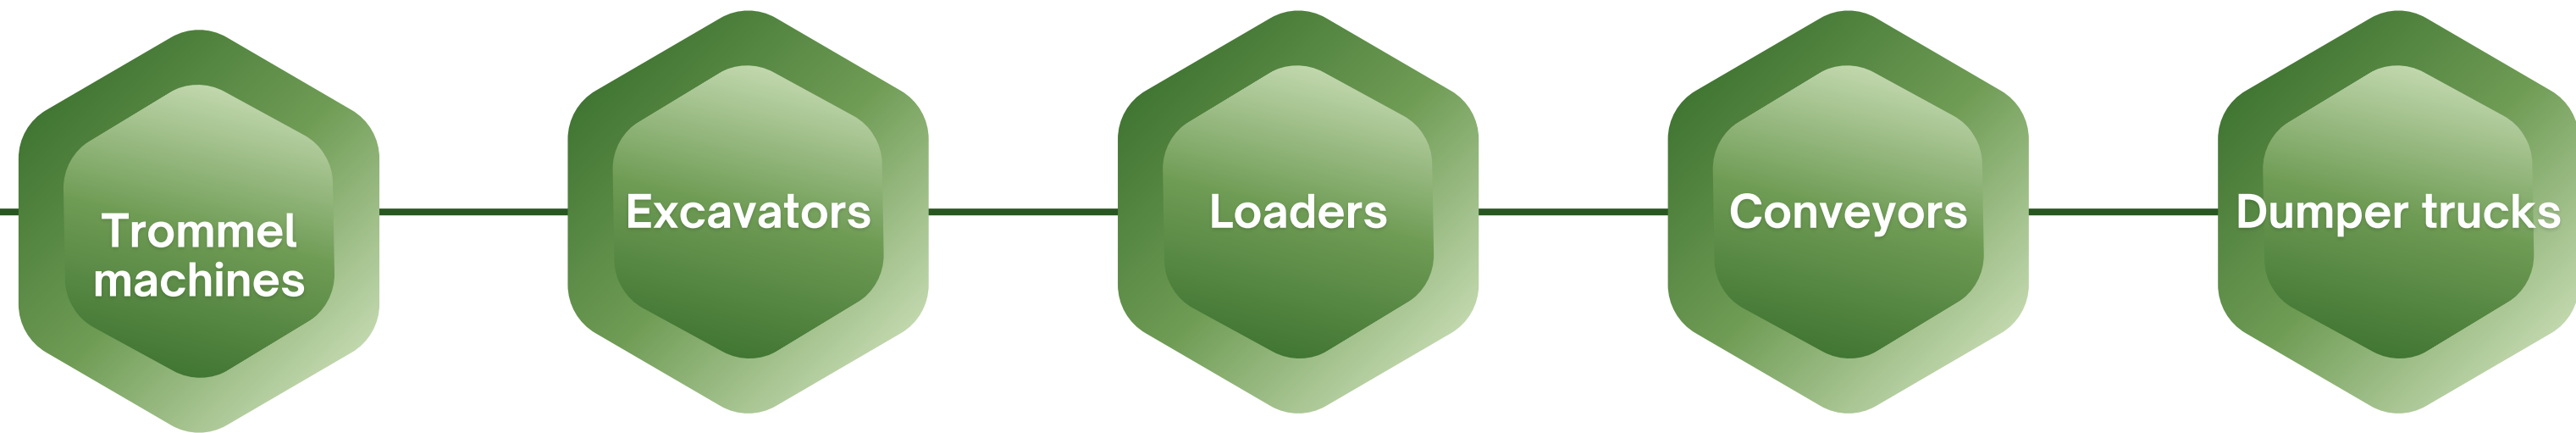

Benefits We Deliver

- 01** Reduction of landfill volume.
- 02** Recovery of usable land
- 03** Lower groundwater contamination
- 04** Improved sanitation for communities
- 05** Sustainable waste-to-resource models

Machinery Used

ROAD & CONSTRUCTION EQUIPMENTS SERVICES

Infrastructure development demands precision, speed, and strong machinery. We supply top-grade construction equipment with trained operators.

Equipment Available

- Excavators
- Backhoe loaders
- Tippers & dumpers
- Compactors
- Dozers
- Hydraulic breakers

Our Strengths

- Well-maintained machinery fleet
- Experienced operators
- Quick site mobilization
- Safe operating practices
- Support for government & private projects

Applications

- Earthmoving
- Road work
- Land development
- Site preparation
- Demolition
- Foundation excavation

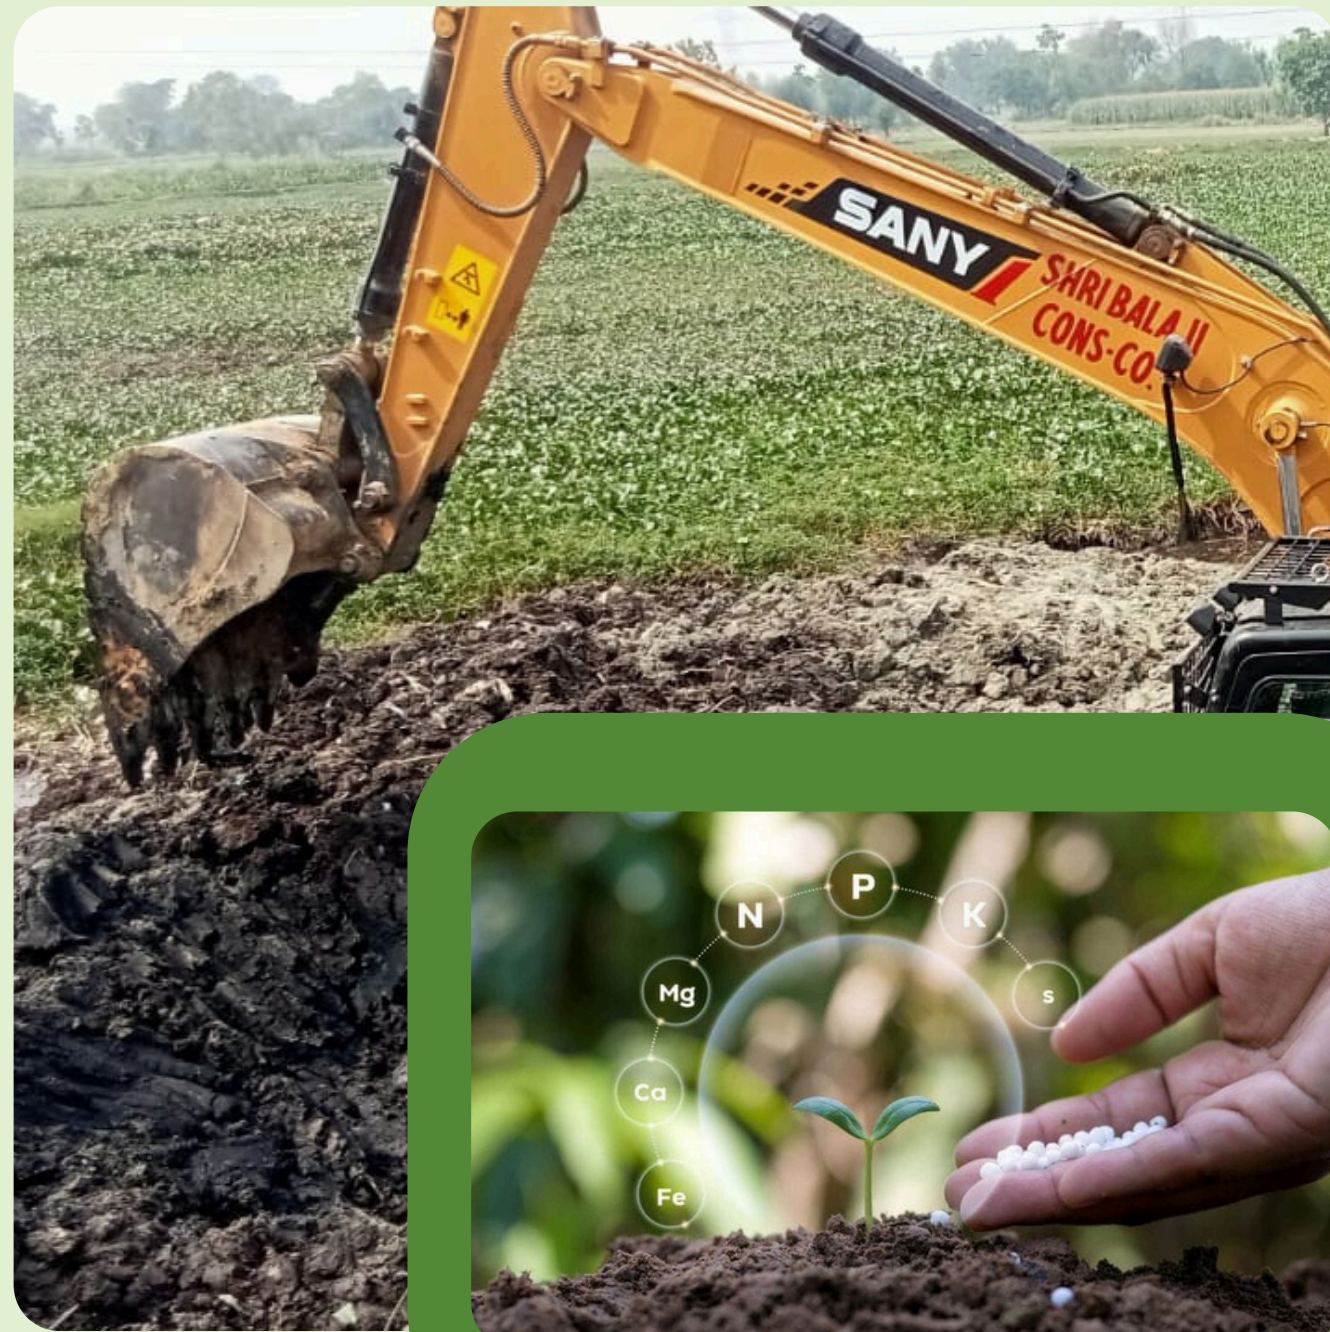

VERMICOMPOST MANUFACTURER

About Our Organic Division

We produce high-quality vermicompost using *Eisenia Fetida* earthworms. Our compost is rich in nutrients, micro-organisms, and organic carbon.

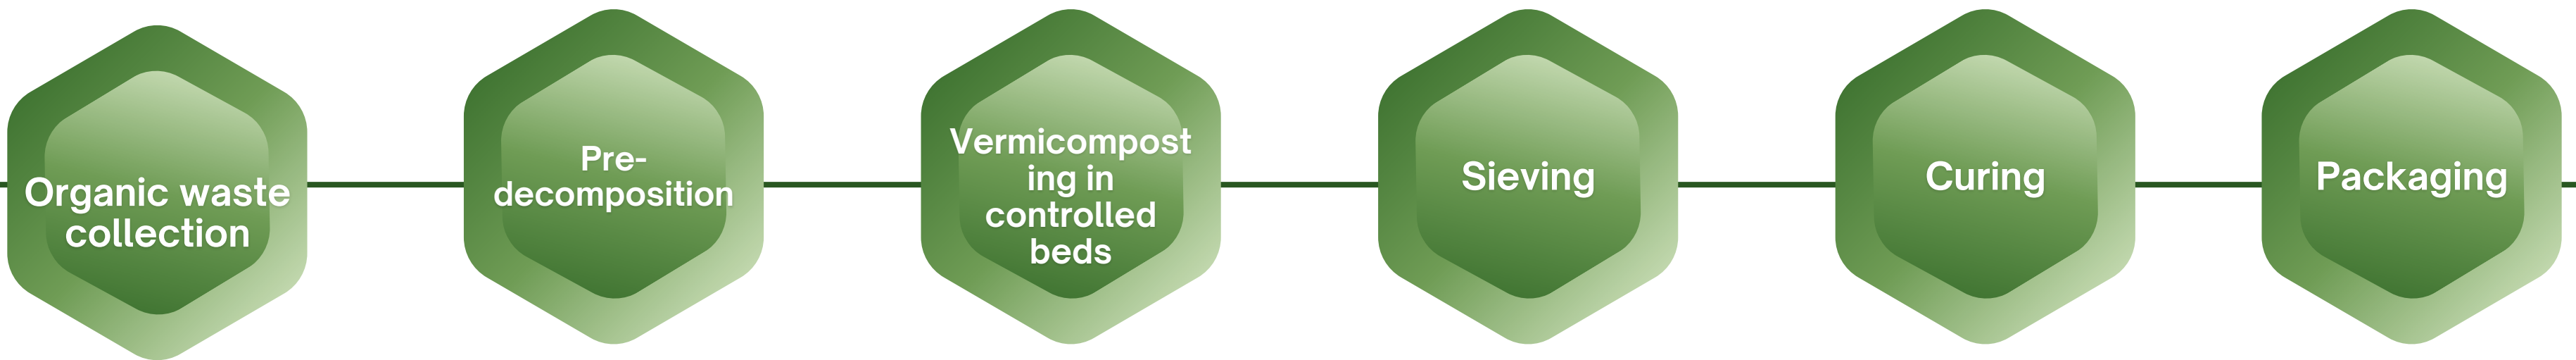

Features

- 100% organic
- Odour-free and soil-friendly
- Improves yield naturally
- Safe for all crops and soil types

EARTHPOWER ORGANIC FERTILIZERS

EarthPower is our flagship organic fertilizer brand designed to enrich soil health and strengthen crop growth.

Product Benefits

- Enhances root development
- Increases soil aeration
- Boosts microbial activity
- Improves water retention
- Adds long-term soil fertility

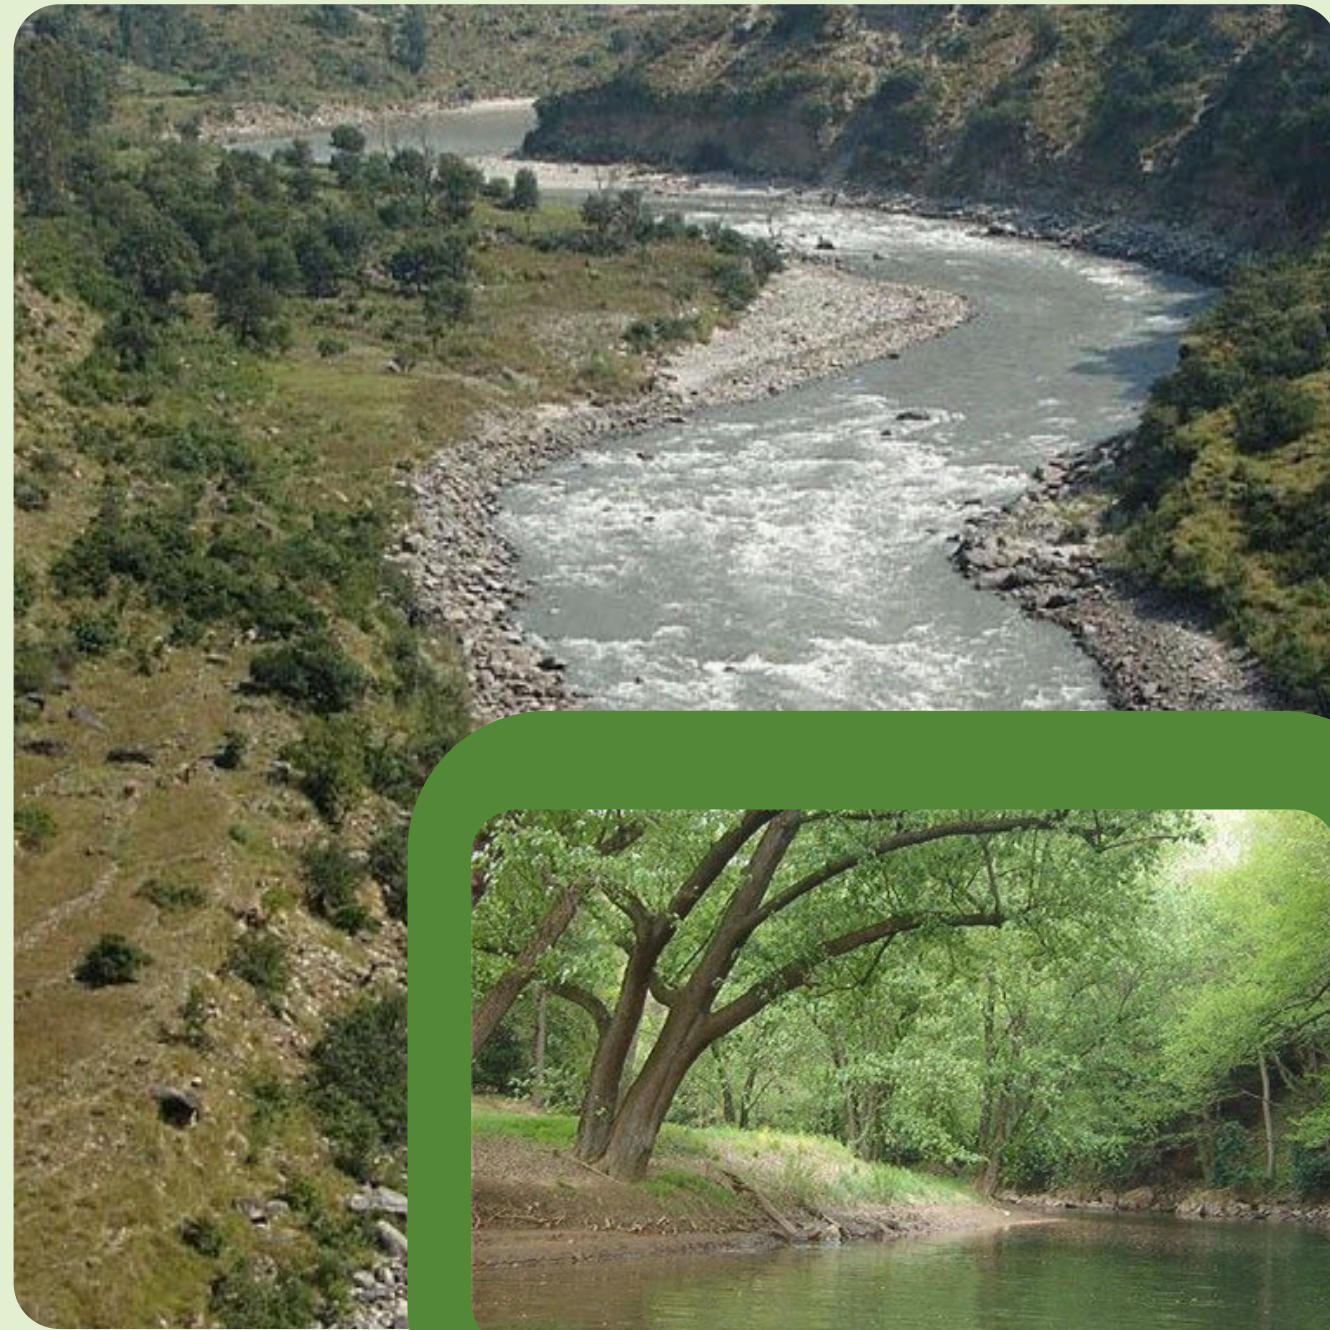

WATER BODY MANAGEMENT

Services

- Desilting of ponds
- Lake deepening
- Wetland restoration
- Waterweed removal
- Biodiversity enhancement
- Bank protection

Outcomes

- Increased water storage capacity
- Cleaner & healthier ecosystems
- Restoration of traditional water bodies
- Community benefit and beautification

LANDSCAPING AND GREEN DEVELOPMENT

We create green spaces that improve air quality, aesthetics, and environmental comfort.

Services

- Landscape designing
- Garden development
- Plantation drives
- Natural water features
- Urban green belts

Our Clients

- Municipalities
- Resorts
- Real estate developers
- Private farmhouses
